Joint Base McGuire-Dix-Lakehurst

Fire & Emergency Services Introduction

Joint Base McGuire-Dix-Lakehurst Fire & Emergency Services Station # 5 is staffed with forty-eight dedicated career members in one station on-board the Lakehurst site. The Department is dedicated to serving the community of Navy Lakehurst and those that surround us with the highest of quality in fire and emergency services response. In the age of many never-ending challenges the fire and emergency service personnel of Joint Base McGuire-Dix-Lakehurst are committed to the prevention of fire, fire education to preserve life and property and training of Department personnel to protect life and property.

Furthermore the Department stands ready at all times, trained and ready to respond to meet all emergencies that include fire, medical, technical rescue, hazardous materials, man made and natural disasters. Joint Base McGuire-Dix-Lakehurst Fire & Emergency Services is committed both physically and mentally to meet these challenges and accomplish our mission in preserving life and property through our services. Joint Base McGuire-Dix-Lakehurst Fire & Emergency Services is advancing the achievement of our mission and goals as an emergency services agency. The Department is moving towards achieving our goals through providing our fire and emergency services not only to Navy Lakehurst site but to also serve the communities that surround our fine Joint Base Installation. This guide acts as a reference for departments who may be interested in our services. Our Department and personnel stand ready to assist our fellow departments in any manner possible.

Joint Base McGuire-Dix-Lakehurst Fire & Emergency Services

Station # 5

Dispatching Joint Base McGuire-Dix-Lakehurst F&ES and Establishing Mutual Aid Agreements Questions & Answers

What services are available to my fire company from Joint Base Station # 5?

All of our emergency services are available to aid the departments that request any of our services. You simply need to request the response of the department through Ocean County Dispatch.

Do I have to sign a mutual aid contract in order to call for assistance from Joint Base Station # 5?

No, you do not need a mutual aid agreement to call for our services; simply request the fire and emergency services division of Navy Lakehurst when you need it.

What are the benefits to establishing and maintaining a mutual aid agreement with Joint Base McGuire-Dix-Lakehurst Fire & Emergency Services?

There are many benefits in establishing and maintaining mutual aid agreements with Joint Base McGuire-Dix-Lakehurst F&ES. Our services are available (24) hours a day, seven days a week and we always have qualified personnel responding to aid and supplement the man power of your department when needed.

Joint Base McGuire-Dix-Lakehurst F&ES provides specialized emergency services that can be very beneficial to a department in establishing a mutual aid agreement. Training between the two agencies can be established as well as our response complimenting and providing an adequate response for technical rescue, HAZ-Mat and WMD response just to mention a few.

During the daytime hours when manpower may be low, a mutual aid agreement could utilize the Joint Base McGuire-Dix-Lakehurst F&ES to respond to your department's daytime calls to aid in manpower and supplement the volunteer staffing in your community.

The benefits are unlimited from establishing mutual aid agreements. Please contact the fire administration of Joint Base McGuire-Dix-Lakehurst F&ES for more details.

How do I establish a mutual aid agreement?

It is a rather easy process in simply contacting the Fire Administration of Station # 5 F&ES at 732-323-2344.
